COMPILERS AND PUBLISHERS

DES MOINES, IOWA

Introductory.

We present this, the thirteenth volume of the Des Moines City Directory, to our patrons and the public generally with the utmost confidence in its being received by them with the same favor and approval that our previous works have received.

It is hardly necessary to say that unusual care has been taken in compiling this volume, and it is believed that fewer errors will be found than in any like work heretofore issued in the city. An errorless directory has never yet been published, a fact which should be borne in mind by over-captious critics.

POPULATION.

This volume contains 41,571 names. Making the usual deductions for corporations, firms, removals and deaths, and applying the multiple of $2\frac{1}{2}$, which is believed to correctly represent the names of men and children not included in the city directory, a population 37,693 is indicated, an increase over 1903 of 1,288.

In conclusion we extend our sincere thanks to subscribers and advertisers in this work, for their generous support, and to the public generally for courtesies shown our agents during the canvas.

Yours respectfully,

R. L. POLK & CO.

Des Moines, Iowa, Nov. 5, 1904.

STREET AND AVENUE GUIDE

EXPLANATION

IN ARRANGING "The Street and Avenue Guide" for the City of Des Moines, the following plan has been adopted (and approved by the city engineer): All streets on the west side of the Des Moines River have been designated by the same name or number alone, abolishing the prefix of west except in the case of numbered streets south of Vine, for example: Walnut, Vine, Grand av., Locust. In the case of the numbered streets, all north of Vine are designated as 1st, 2d, 4th, etc., and south of Vine, w so 1st, w so 2d, w so 3d, etc. Streets east of the Des Moines River which run through to the west side of and beyond the river are designated as e Vine, e Court av., e Walnut, e Locust, etc., the numbered streets north of Vine as e 1st, e 2d, e 3d, e 4th, etc., and south of Vine as e so 1st, e so 2d, e so 3d, etc. Streets on either side of the Des Moines river which do not run through from west to east Des Moines, are designated by their names without any prefix; for example: Maple, Buchanan, School, University, etc. If located south of the Racoon river, the name of the street is followed by (S D M); if north of the Des Moines river (Highland Park).

The following abbreviations are used. Av for Avenue, al for alley, bet for between, boul for boulevard, D M for Des Moines, n for north, rd for road, s for south, w for west, e for east, nw for northwest, sw for southwest, junc for junction, opp for opposite, dr for drive.

CURES

**Tobacco, Liquor, Morphine, Opium, Cocaine, Neurasthenia and
All Narcotic Addictions.**

"Drunkenness is a Disease and can be cured. The drunkard is a sick man, not a criminal." "Science conquers inebriety, entirely eradicating all desire for alcoholic stimulants, and absolutely accomplishes permanent cures. Alcoholism in its advanced stage is a disease and not a habit; a disease from which its victim can escape no more easily than he could from diphtheria, or typhoid fever, and so the only rational thing to do for him is to give him medical treatment suitable to his case."

P. D. Armour, head of the great Armour Packing Co., of Chicago, Ill., (in a personal letter to Dr. Keeley,) said: "I have sent about 200 of my employes, from butchers to foremen, and all have been permanently cured. I do not think there is any one thing, or any one man who ever did the good to humanity that you are doing with your cure."

On request we will send a booklet describing treatment, its cost and giving all necessary information
